## CODE STYLE : PSR 1 ET PSR 2 THE BASICS

```
($a === 5); ($a == '5');
if ($a) return true;
function ($a) { return true; }
' my value is ' . $a // « my value is $a »
($a == $b) ? true : false
```

#### DATE AND TIME

#### => DATETIME CLASS

```
<?php
$raw = '22. 11. 1968';
$start = DateTime::createFromFormat('d. m. Y', $raw);
echo 'Start date: ' . $start->format('Y-m-d') . "\n";
```

#### **P00**

```
<?php
class Foo {
    public $aMemberVar = 'aMemberVar Member Variable';
    public $aFuncName = 'aMemberFunc';
    function aMemberFunc() {
        print 'Inside `aMemberFunc()`';
$foo = new Foo;
?>
NEW
```

## PROJET CINÉ MEGASHARK

GROUPE DE 2 NOTÉ 1/20

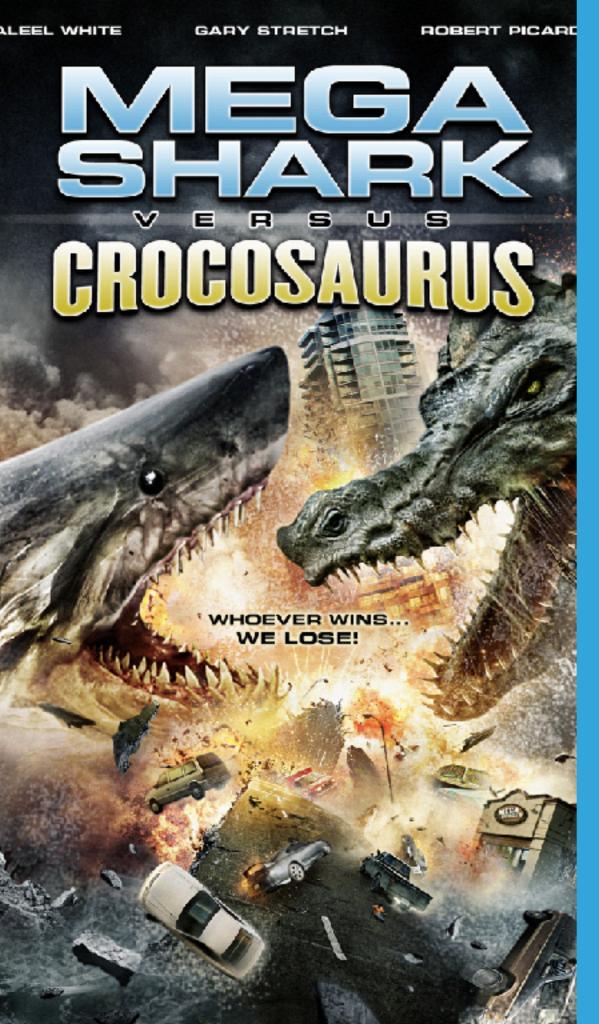

### VOTRE CLIENT:

Le cinéma MegaShark, petit cinéma indépendant, diffuse exclusivement des films de la société de production http://www.theasylum.cc/.

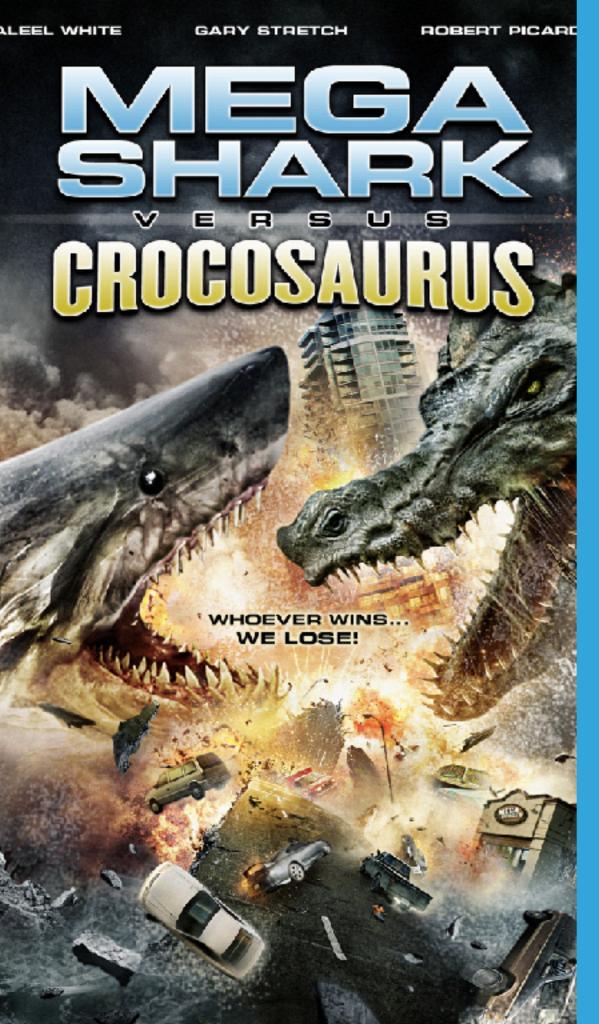

Il souhaite mettre en place un outil de gestion pour faciliter la planification des séances de cinéma.

Pour réaliser ce projet vous utiliserez CakePHP.

## FONCTIONNALITÉS:

- gérer la liste des films
- gérer la liste des salles
- planifier des séances

#### Un film:

- un nom
- une description
- durée
- année de sortie

#### Une salle:

- nom
- capacité

#### Une séance:

- un film
- une salle
- une heure de début
- une heure de fin

## FORK REPOSITORY (GITHUB : <u>HTTPS://GITHUB.COM/BENJAMINLAMPERIER/MEGASHARK</u>)
